Experience & Focus

- Introduction of executives, sales, marketing and technical personnel for suppliers of equipment and services within Networking and Telecommunications
- Represent start-ups, emerging and established industry leaders
- Track record of over fifteen years recruiting within the technology recruitment industry
- Permanent recruitment including Contingency and Project

Coverage

Europe

Technology areas

Data and Voice Networking including IP Telephony, Security, Wireless, Mobile, Optical, Network Performance, Storage, Managed and Professional Services.

Value Add

Experience and track record of managing recruitment projects, sourcing and introducing candidates that make the difference. We source and qualify... You hire!

Qualified Candidates

Extensive network of specialists, developed over fifteen years, including candidates to clients and senior executives across Europe, enable the sourcing of qualified candidates.

Confidence

Proven track record and specialist industry experience provides confidence in our ability to deliver.

Service and Response

Managing the process and keeping you informed is equally as important as delivering, effective customer service and response is guaranteed.

Partnerships and information are essential, together we can attract the people you need to sustain your current activity or for expansion and growth.

Services (depending on requirement)

- **Project** - Assignments, often retained, that require sourcing for key or executive hires or the need to hire in greater quantity
- **Contingency** - Results only service utilising mixture of sources
